

Quick, Easy & Simple

How does the Super Scooper benefit you?

Anyone who has spent time cleaning up horse manure with a shovel and wheelbarrow knows how an easy afternoon can soon turn into a back-breaking day out in the summer heat.

The Super Scooper Horse Manure Removal System will save you valuable time that could be spent doing other work around the house, relaxing or even riding your horse.

Cleaning up horse manure becomes a breeze with the innovative and easy design of the Super Scooper. With the ability to change from a scooper to a trailer to transport manure in seconds, there is no quicker or more efficient Horse Manure Removal System available.

Attach the Super Scooper unit to a tow vehicle such as a ride on lawn mower or quad bike then drag it along behind to scoop up manure. Once a paddock is finished, the Super Scooper is easily converted into a small trailer in less than 20 seconds to transport and dump the manure at a site of choice. The Super Scooper also acts as a yard trailer, designed to accommodate 2 small hay bales; The Super Scoopers dual use makes it a perfect addition to any rural property.

The Super Scooper is a great investment for you and your horses. By keeping your paddocks clean and manageable, you will not only save time, but also create a safer grazing environment for your horses.

Quick Clean up of Horse Manure in 5 Easy Steps!

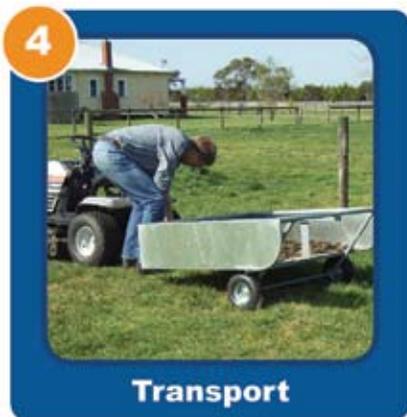

Attach the Super Scooper to your Quad Bike or Ride on Mower. Drive over your horse manure to scoop it up inside the Super Scooper.

When full, take the Super Scooper off your tow vehicle then pull the pin out of the draw bar. The bar can now be swapped to the other end of the Super Scooper. It's as simple as sliding the draw bar pin and pushing the pin into place.

Lift the Super Scooper, push the wheels up and around until they are under the Super Scooper. The spring loaded bolt can now be locked in.

Attach the draw bar to your tow vehicle, and you now have a trailer to transport the waste to a suitable dump site.

Dump the Horse Manure from the Super Scooper in a suitable site. Wash the unit, and store ready for next time.
